Quiet-Vent Radial Ducting Kit Contents

We have various options of ducting kits available, chose from our standard or upgrade to premium.

75mm crushproof radial ducting with smooth inner surface

Quality ductwrap insulation for ducting

Metal extract & supply valves

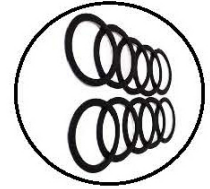

90° elbow bends

PVC ductina for ductina from unit to manifolds

Round pipe connectors

Sealing rings for air tight connections

Top quality easy to install plenums

Extensive range of distribution boxes

Insulated ducting for making final connections

Stainless steel external cowls

Premium Kit Upgrades

Premium Ducting with antibacterial and antistatic lining

Top quality Airflex Plenum

Pro Air Valves with quick and easy

Rubber couplings for unit to duct connections

MVHR installation kit Sealant, foil tape and fixing band

Flexible silencer to prevent noise transfer

Additional Options

High quality units providing ventilation, cooling and additional heating

Quiet-Vent Comfort Cooler reduces indoor air temperature to a comfortable level

Fire collars and fire sleeves seal the pipe preventing the spread of fire in emergencies

Designer airy air valve provide acoustic performance and have a range of discrete face plates available

Roof vents allow for the installation of the MVHR unit where there is no preferred external wall available

MVHR duct heaters are available in pre and post heater models with thermostats to regulate temperatures

Quiet-Vent standard ducting kits are the perfect ducting solution for MVHR systems, check out our additional options and upgrades to get even more out of your system.

Ventilation Solutions

75mm Duct/Manifolds

Standard Semi-Rigid Radial Ducting Pipe - QV75PB

Popular 75mm ducting solution for heat recovery systems. Reduces pressure, lowers noise level and reduces installation time.

Premium Semi-Rigid Radial Ducting Pipe - QV75PR-Pro

Premium 75mm ducting solution for heat recovery systems. Features a smooth bore with antistatic and antibacterial lining.

Standard Round Ceiling or Wall Plenum - QV75PLEN90

Standard 90° plenum with additional 350mm pipe and seals. Used for connecting 75mm ducting through ceilings or walls to 125mm air valve.

Pro Round Ceiling or Wall Plenum - QVPLEN90-Pro

Premium plenum used to connect 75mm ducting through ceilings or walls to a 125mm air valve.

Quiet-Vent 75mm - Standard Straight Plenum - QVPLEN75ST

Straight low-profile plenum saves vital space to connect 2x75mm ducting to 125mm ducting or valve.

Premium Semi Rigid Radial 90° Bend Connector - QVCON90F

90 degree bend for very tight bends in 75mm round radial ducting. Comes complete with 2 sealing rings and held securely by reusable locking clips.

Standard Semi Rigid Radial 90° Bend Connector - QVCON90-Pro

90 degree bend for very tight bends in 75mm round radial ducting, requires 2 x sealing rings.

Ventilation Solutions

Radial Straight Connector - QVCONSF

Standard inline straight connector suitable for use in 75mm semi-rigid ducting systems, requires sealing rings

Pro Radial Straight Connector - QVCONS-Pro

Premium straight 75mm connector for use in radial ducting systems, provided with 2 sealing rings.

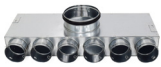

75mm Sealing Rings - QV75SR

Pack of 10 standard sealing rings for use in 75mm radial ducting systems.

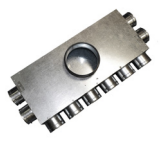

Pro 75mm Sealing Rings - QV75SR-Pro

Premium pack of 10 sealing rings to provide an airtight seal between pipe and plenum.

6 Point Distribution Box - QV75-06150TE

Metal Distribution Box with 6 x 75mm spigots and 1 x 150mm top entry spigot with sealing ring. Dimensions - 600mm x 200mm x 90mm.

10 Point Top Entry Distribution Box - QV75-1015TE

Metal Distribution Box with 10 x 75mm spigots and 1 x 150mm top entry spigot with sealing ring. Dimensions - 600mm x 250mm x 90mm.

10 Point Distribution Box - QV75-10150RE

Metal Distribution Box with 10 x 75mm spigots and 1 x 150mm back entry spigot with sealing ring. Dimensions - 500mm x 250mm x 200mm

Ventilation Solutions

15 Point Distribution Box - QV75-15180RE

Metal Distribution Box with 15 x 75mm spigots and 1 x 180mm back entry spigot with sealing ring. Dimensions - 500mm x 350mm x 300mm.

Quiet-Vent 75mm Blanking Caps - QV-BLANKCAP

Blanking caps suitable for closing 75mm ducts in ports not used in distribution boxes or to stop dust entering during the installation process.

90mm Duct / Manifolds

Quiet-Vent 90mm x 50 Meter Radial Pipe - QV90PG

Highly flexible 90mm radial ducting with smooth antibacterial and antistatic inner surface.

Quiet-Vent PVC 90° Plenum 90mm Round Pipe (90mm) - QVPLEN90P

90° straight plenum used to connect 90mm radial ducting through ceilings or walls to 125mm air valves.

Quiet-Vent 90mm Sealing Ring (pack of 10) - QV90SR

Pack of 10 standard sealing rings for use in 90mm radial ducting systems.

Quiet-Vent PVC 90mm Straight Connector - QVCONST90

Standard inline straight connector suitable for use in 90mm semi-rigid ducting systems, requires sealing rings.

Quiet-Vent PVC 90mm 90 Degree Bend - QVCON9090

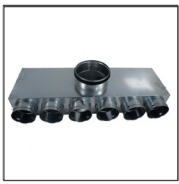

Universal fitting suitable for most other makes of 90mm radial duct, used for very tight bends on the 90mm semi rigid radial ducting

Ventilation Solutions

Quiet-Vent PVC 90mm Straight Plenum - QVPLEN90ST

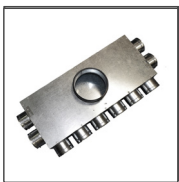

Straight low profile plenum saves vital space to connect 2x90mm ducting to 125mm ducting or valve.

Quiet-Vent 6 Point Top Entry Distribution Box 150 spigot (90mm) -

QV90-06150TE

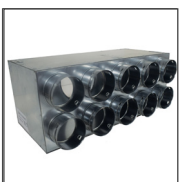

Metal 6-point 90mm distribution box with 150mm top spigot, dimensions – 600mm x 200mm x 110mm.

Quiet-Vent 10 Point Top Entry Distribution Box 150 Spigot (90mm) -

QV90-10150TE

Metal 10-point 90mm distribution box with 150mm top spigot.

Quiet-Vent 10 Point Rear Entry Distribution Box 150 spigot (90mm) -

QV90-10150RE

Metal 10-point 90mm distribution box with 150mm rear spigot, dimensions – 560mm x 250mm x 230mm.

Quiet-Vent 90mm Blanking Caps - QV90-BLANKCAP

Blanking caps suitable for closing 90mm ducts in ports not used in distribution boxes or to stop dust entering during the installation process.

MVHR Heating & Cooling

Quiet-Vent Comfort Cooler - QV-CC1700

The Quiet-Vent Comfort Cooler is an easy to install system that will cool the air being supplied to your home via home ventilation system. It is an air tempering device designed to help reduce the risk of overheating in homes.

Quiet-Vent Duct Mounted Electric Heater Range - QV-EKA

Top Quality electric duct heater with thermal cut out switches, available in 1.2kw, 2.4kw and 3.0kw with a range of sizes including 125, 160, 200 & 250mm.

Ventilation Solutions

Quiet-Vent Circular Electric Duct Heater with Room Thermostat and Safety Sensors - QV-EKA-NI-PTC

Suitable for use as a controllable post heater that will increase air temperature to the rooms, available in 0.6kw, 1.2kw, 2.4kw and 3.0kw with sizes including 100, 125, 160, 200 & 250mm.

Quiet-Vent Circular Electric Duct Heater with Adjustable Temperature and Safety Sensors - QV-EKA-NV PTC/PS

Professional complete heater with temperature sensor located on the unit with duct airflow sensor and differential pressure sensor, available in 0.6kw, 1.2kw, 2.4kw and 3.0kw with sizes including 100, 125, 160, 200 & 250mm.

Quiet-Vent 2 or 3 Row Water Duct Heater - QV-CWH-125-400-2/3

Uses hot water as the energy carrier and is used for heating the air in a ventilation system. Options include 2 or 3 row duct heaters, suitable for 125, 160, 200, 250, 315 & 400mm ducting systems.

Quiet-Vent 3 Row Water Duct Cooler - QV-CWC-125-400-3

Uses cold water supplied from your existing heat pump and is used for cooling the air in a ventilation system. Options include 3 row duct coolers suitable for 125, 160, 200, 250, 315 & 400mm ducting systems.

Switches, Sockets and Relays

Quiet-Vent 1 Gang Momentary Boost Switch (Labelled) -

QV-BoostSw/ QV-BoostSw(S/Chrome)

Momentary boost switch for boosting ventilation systems, available in White or Chrome.

Quiet-Vent 1 Gang Momentary Boost Switch + Light Switch (Labelled) -

QV-Switch2 / QV-Switch2 (S/Chrome)

Switch for boosting ventilation, and turning on/off light, available in White or Chrome.

Quiet-Vent 1 Gang Rocker Switch (Labelled) -

QV-RockerSw / QV-RockerSw (S/Chrome)

Single gang manual switch to boost from low to high speeds on ventilation systems, available in White or Chrome.

Ventilation Solutions

Quiet-Vent 1 Gang MK Momentary Switch Logic White -

QV-MK-Bsw / QV-MK-BswE

White momentary boost switch, available labelled and unlabelled.

Quiet-Vent Relay Isolator Control Box - QV-Relay_1-6

Relay isolator control box available in circuit options 1,2,3,4,5 & 6.

Heat Recovery Units

150N Mechanical Ventilation Heat Recovery Unit - QV-MIA-150N

Outstanding value horizontally mounted heat recovery units suitable for small apartments and houses requiring extraction from two or three bathrooms and supply into two or three bedrooms or living rooms.

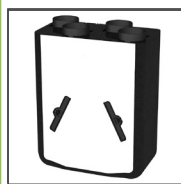

Vent Axia Kinetic Sentinel Heat Recovery Unit Range - QV-VA-units

We have a range of Vent Axia Heat Recovery Units suitable for all sizes of homes. Units include Highflow, Plus B, F, BH & Advance S/SX. We stock right hand models but left hand models are available on special request.

Komfovent Domekt Rotary Wheel Heat Recovery Units - Domekt-R

We highly recommend Domekt units for someone only looking for the best as this new range of efficient rotary wheel units are one of the most advanced and superior built units available with few rivals.

Domus Heat Recovery Units - HRXD / HRX2D

Domus heat recovery units are available in two different models, providing ventilation to medium to large projects.

Blauberg Horizontal Komfort Ultra D105-A - D105A

The Venti 500 is a residential heat recovery unit suitable for house sizes up to 350m², featuring an internal humidity sensor and summer bypass. Low noise output and an A+ energy class make the Venti 500 a powerful and efficient unit.

Ventilation Solutions

Commercial Heat Recovery Units

Komfovent RHP Rotary Wheel Units with Heat Pump - RHP

We highly recommend Komfovent RHP units for someone only looking for the best as this range of innovative units with integrated heat pump. This unit range has two-stage energy recovery by rotary heat exchanger and heat pump.

BSK BRHR Commercial Heat Recovery Range - BSK-BRHR Plus 10-40

BSK digitally controlled commercial heat recovery units are available in different sizes and are available with or without pre heater, post heater and water heater options. Unit options include BRHR Plus 10, 15, 20, 25, 30 & 40.

Duct Connectors

Quiet-Vent 125mm - Rubber Flexible Circular Duct Connector - QV-CRC110-125 - 170-185

High quality Flexible Rubber Circular Connectors are used to neutralise vibrations in circular ducts in ventilation systems available in various sizes, 100-125, 135-150, 150-165 & 170-185mm.

Ducting Accessories

Quiet-Vent 75mm - Roll Silver Foil Tape - QV-ST75

75mm Silver foil tape for use with insulation and jointing rigid ducting joints.

Quiet-Vent Builders Strap Roll (10 meters) - QV-BS50

Builders strap is used to secure ducting to ceilings and walls, constructed of galvanised steel.

Quiet-Vent Sealant - Grey Duct - QV-SE380

380ml tube of water-based duct sealant used to connect metal ducting fittings or solid rigid PVC, can be used with standard silicone gun.

Quiet-Vent Radial Duct Lubricating Jelly 5g Sachets - QV-LJ5G

High quality 380ml tube of water-based duct sealant used to connect metal ducting fittings or solid rigid PVC, can be used with standard silicone gun.

Ventilation Solutions

Air Valves

Metal Supply Valve - QV-MW105 / MW125 / MW155

Powder coated metal air supply valve suitable for all types of ventilation systems, including flexible aluminium ducting systems. Valve comes complete with ceiling collar. Available sizes - 100mm, 125mm & 150mm.

Metal Extract Valve - QV-MW104 / MW124 / MW154

Powder coated metal extract valve suitable for all types of ventilation systems, including flexible aluminium ducting systems. Valve comes complete with ceiling collar. Available sizes - 100mm, 125mm & 150mm.

Metal Fire Protection Supply Valve - QV-MW105FRS / MW125FRS / MW155FRS

100mm, 125mm or 150mm fire protection supply air valve. Suitable for all types of pipe and plenums, please allow 100mm required space inside pipework/plenum. The valve will close if temperature reaches 72°C sealing the duct from fire and smoke ingress.

Metal Fire Protection Extract Valve - QV-W104FRE / MW124FRE / MW154FRE

100mm, 125mm or 150mm fire protection extraction air valve. Suitable for all types of pipe and plenums, please allow 100mm required space inside pipework/plenum. The valve will close if temperature reaches 72°C sealing the duct from fire and smoke ingress.

Diffusers

Quiet-Vent Supply Air Linear Spiral Duct Grille + Damper - QV-LRDG-600-75-S / E QV-LRDG-1025-75-S / E

Suitable to supply or extract air from Spiral round air ducts, available in 600x75mm or 1025x75mm.

Solid Rigid Pipe

Quiet-Vent Round PVC Pipework - QV-P100/125/150-1/2

PVC round ducting available in 100mm, 125mm and 150mm diameters and in 1 meter and 2-meter lengths.

Quiet-Vent PVC Round Connector - QV-C100/125/150

PVC round pipe connectors available in 100mm, 125mm and 150mm diameters.

Ventilation Solutions

Quiet-Vent PVC 45° and 90° Elbow Bend Round - QVB45100-QVB45150
QVB90100 - QVB09150
Round 45° and 95° PVC bends with sizes 100mm, 125mm, 150mm available.

Quiet-Vent PVC T Piece Round - QV-T100/125/150
Round PVC T piece available in sizes: 100mm, 125mm & 150mm.

Quiet-Vent PVC Y Piece Round - QV-Y100/125/150
Round PVC Y piece available in sizes: 100mm, 125mm & 150mm.

Quiet-Vent PVC Condensation Trap with Overflow Connection
QV-CD100/125/150
For control of condensation/moisture in ducted ventilation systems, available for 100mm, 125mm and 150mm ducting systems.

Quiet-Vent PVC Round 100mm Telescope Pipe 200-350mm with Reducing Ring - QV-VKC307
Primarily used for individual fan installation. The pipe can vary in length for ease of installation through walls.

Quiet-Vent PVC High Rise Wall Kit White 100mm - QV-VVK200W
To suit applications from louvre with insect mesh protection to high rise wall kits providing wind protection.

Quiet-Vent PVC Self Seal Connector - QV-VSSC125PP/PF
125mm connector available for duct to duct connectors, or duct to fitting connections.

Ventilation Solutions

Quiet-Vent PVC 125mm Pipework x 350mm - QV-P125-350

350mm long 125 diameter pipe, suitable for extra length when installing plenums.

Quiet-Vent Pipe Connector with Damper - QV-C125D / QV-C155D

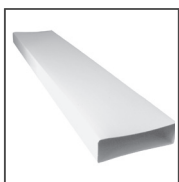

Round connector with damper to control airflow, available in 125mm and 150mm sizes.

Quiet-Vent PVC Reducer Range - QV-RP

Allows you to convert a larger duct to a smaller duct with ease, available for ducting sizes: 125-100mm, 150-100mm, 150-125mm & 200-150mm.

Rectangular PVC Pipe

Quiet-Vent PVC Flat Pipework - QVP110/204/220-1/2

Flat PVC ducting available in 110x54, 204x60 & 220x90mm and in 1 meter and 2-meter lengths.

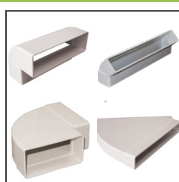

Quiet-Vent Flat Channel Connector F/M - QV-C110/C204/C220

Female to male ducting connector suitable for 110x54, 204x60 and 220x90 ducting systems.

Quiet-Vent Flat Equal T Piece - QV-T110/T204/T220

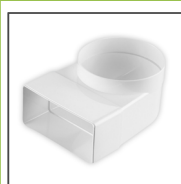

Rectangular equal T piece for ducting connections in different directions, available in sizes: 110x54, 204x60, 220x90mm.

Quiet-Vent Rectangular 45° & 90° Horizontal & Vertical Bends - QVH/VB45110 - QVH/VB45220 QVH/VB90110 - QVH/VB90220

Rectangular 45° and 90° degree bends available in horizontal and vertical versions in a range of sizes: 110x54, 204x60, 220x90mm.

Ventilation Solutions

Quiet-Vent 110x54mm Elbow Bend with 100mm Spigot - QV-S110

110x54 rectangular bend with 100mm round spigot to join rectangular to round ducting together.

Quiet-Vent Short Round to Rectangular Adaptor Female - QV-VKC241/A204125/A220150

Adaptor for round male spigot to rectangular ducting pipe, available in sizes 100 to 110x54mm, 125 to 204x60 and 150 to 220x90mm.

Quiet-Vent 110x54mm - Louvred Grill White Rectangular Spigot - QV-VKC233W

White grille with rectangular 110x54mm spigot.

Quiet-Vent Rectangular Fixed Spigot Connectors - QV-SP204-125/150 - SP220-125/150

Rectangular fixed spigot connector in sizes: 125 to 204x60mm, 150 to 204x60mm, 125 to 220x90mm and 150 220x90mm.

Quiet-Vent Rectangular Ducting Connectors - QV-VSS204DD/DF - VSSC220DD/DF

Rectangular ducting connectors available for 204x60 and 220x90mm ducting, available for duct to duct or duct to fitting.

Quiet-Vent 204x60mm Flexible Connection Pipe- QV-VKC5627

Rectangular 204x60 flexible pipe for ducting connections.

Quiet-Vent 204x60mm to 220x90mm Adaptor - QV-VKC5643

Adaptor for 204x60mm to 220x90mm rectangular ducting.

Ventilation Solutions

Quiet-Vent 204x60mm T-Joint Spigot 125mm - QV-TSP204-125
204x60mm rectangular T piece ducting connector with 125mm spigot.

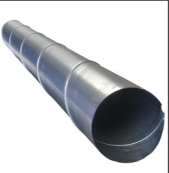

Quiet-Vent 220x90mm Rotating Spigot 125mm - QV-SP220R-125
220x90 rectangular connection with 125mm or 150mm rotating spigot.

Quiet-Vent Airbrick with Grille - QV-GPVC110/204/220
Airbrick Adaptor to fit 110x54, 204x90 or 220x90mm ducting systems specially designed to provide 90% free area supply and extract air vents. Adaptors and grilles both available, 220x90mm model features two grilles.

Metal Ducting

Quiet-Vent Round Metal Pipework - QV-P100125/150/160/180M-1/2/3
Metal round ducting available in 100mm, 125mm, 150mm, 160mm and 180mm diameters and in 1 meter, 2 meter and 3 meter lengths.

Quiet-Vent Metal Pipe Bends - QVB45100M-QVB45150M
QVB90100M-QV B09150M
Metal 45° and 95° PVC bends with sizes 100mm, 125mm, 150mm, 180mm & 200mm available. Additional sizes also available: 15°, 30° and 60° in 180mm.

Quiet-Vent Metal Duct Female or Male Coupling - QVC100MM/FM - C200MM/FM
Metal male and female duct connectors available sizes: 100mm, 125mm, 150mm, 180mm, 200mm.

Quiet-Vent Metal T Piece - QV-T100M/T125M/T150M/T160M/T180M
Metal T piece connection available sizes: 100mm, 125mm, 150mm, 180mm, 200mm

Ventilation Solutions

Quiet-Vent 150mm Metal End Cap Metal - QV-EC150
End cap for metal ducting, available for male or female fittings.

Adaptors

Quiet-Vent Metal Adaptor for Distribution Box Female-Male - QV-ADP
Adaptor for distribution boxes, available in sizes: 160-125m, 160-150mm, 180-150mm, 200-150mm & 200-180mm.

Dampers

Quiet-Vent - VCD In-line Spiral Duct Single Blade Damper - QV-DS-SDD
Damper with automatic spring closer suitable for 100, 125, 150, 200, 250 & 300mm ducting connections.

Quiet-Vent Motorised Circular Damper - QV-MD-125-130
Motorised circular dampers stop or regulate the flow inside an air duct and are suitable for circular 125,150,200,250 & 300 duct installations.

Fire Control

Fire Collar - QV-WR82/CE, QWR110/CE, QWR125/CE, QWR160/CE, QWR204x60
Intumescent fire collar prevents the spread of fire, smoke and hot gases through plastic pipes. Available in a range of sizes - Round 80mm, 110mm, 125mm, 160mm & Rectangular 204x60mm.

Fire Wrap - QV-W100, FW125, FW150, FW204x60
Fire wrap is a cost-efficient solution to prevent the spread of fire by the ductwork through concrete walls and floors. Available in sizes - round 100mm, 125mm, 150mm and rectangular 204x60mm.

Fire Cuff - QV-FC100X150, FC125TX180, FC150TX180, FC204x60
Fire cuff is an alternative wider solution to prevent firing spreading in PVC ducting through walls and floors. Available in sizes - round 100mm, 125mm, 150mm and rectangular 204x60mm.

Ventilation Solutions

Fire Sleeve - QV-QRS75, QRS110, QRS130, QRS11/54, QRS204/60, QRS220/90
Intumescent Fire Sleeves are suitable for any type of building where a fire compartment wall or floor is penetrated by plastic pipes. Available in sizes - Round 75mm, 100mm, 130mm and Rectangular - 110x54mm, 204x60mm, 220x90mm.

Silencers

Quiet-Vent Flexible Insulated Sound Attenuator - QVF-SILENCER
Insulated flexible ducting provided in 10-meter lengths and available in sizes: 100, 125, 150, 160, 180, 200, 250, 300, 350, 400 & 450mm.

Quiet-Vent Metal Silencer - QVASM
Metal silencer for using in ventilation ducting systems, available in 100, 125, 150, 180, 200, 250, 300, 315, 355, & 400mm diameters, available in 600 and 900mm lengths.

Quiet-Vent PVC Silencer - QV-RAS
PVC rectangular silencers for use in rectangular ducting systems to prevent noise ingress, available in sizes: 204x60mm x 0.5m, 204x60mm x 1m, 220x90mm x 0.5m & 220 x 90mm x 1m.

Filters

Quiet-Vent Replacement 2 x G4 Filters for Heat Recovery Units - QVFILTER
We have a range of G4 filters for Heat Units including Vent Axia - BH, FH, Advance, Plus B & Highflow, Nuair - WM1, Eco2, Eco3, Eco 4 & LP1, Airflow - BV400 and Xpelair Natural Air 180.

Quiet-Vent Air Filter Media G4 (1m x 1m) - QV-G4FILTMEDIA
Suitable for replacement filters in all types of heat recovery units, simply cut to your required dimensions.

Insulation

Quiet-Vent Foil Back Glass Fibre Insulation - QV-INS25-1m/4m/roll
Foil back glass insulation for ventilation systems is available 1 meter, 4 meter or 18-meter rolls. This high quality ductwrap insulation is lightweight and provides thermal and sound insulation.

Ventilation Solutions

External Grilles

Quiet-Vent PVC Louvred Grille Round Spigot - QV-GPVCw/b

PVC louvred grilles are available in white and black, sizes options include 100, 125 & 150mm.

Quiet-Vent Exterior Grille Stainless Steel Louvred Cowl - QV-SSC

Round Cowl with louvres and fine mesh suitable for greater weather protection and when aesthetic appeal is necessary, available sizes: 100, 125, 150, 160 & 180mm.

Roof Vents

Quiet-Vent Slate Vent Kit Universal (Grey/Black) - QV-RVSVBLACK

Suitable for 600x300mm and 500x250mm Natural and fibre Slates, for heat recovery and other ventilation systems using up to 150mm ducting from MVHR unit.

Quiet-Vent Tile Vent Kit Universal (Grey/Black) - QV-CBFD

Aluminium flexible ducting with PVC outer, provided in 6-meter lengths and available in sizes: 100, 125 & 150mm.

Quiet-Vent Flat Roof Lead Apron for Frankische Roof Vent - QV-78316180

Composite metal apron for the 180mm roof terminal and other 200mm external diameter pipe - internal diameter 200mm, external diameter 500mm.

Flexible Duct

Quiet-Vent Flat Roof Lead Apron for Frankische Roof Vent - QVIFD

Insulated flexible ducting provided in 10-meter lengths and available in sizes: 100, 125, 150, 160, 180, 200, 250, 300, 350, 400 & 450mm.

Quiet-Vent Heavy Duty Grey Flexible Ducting (6 Meter Box) - QV-GFD

Heavy duty insulated flexible ducting, provided in 6-meter lengths and available in sizes 100, 125, 150 & 200mm.

Ventilation Solutions

Quiet-Vent Combi Flexible Ducting Aluminium / PVC Outer (6 Meter Box) - QV-CBFD

3 meters of semi rigid aluminium ducting for ventilation system, available in 100mm, 125mm and 150mm.

Quiet-Vent Semi Rigid Aluminium Ducting (3 Meter Box) -

QV-SRAD102 / 127 / 152

Aluminium flexible ducting with PVC outer, provided in 6-meter lengths and available in sizes: 100, 125 & 150mm.

Manufacturers and Distributors of Innovative Ventilation Products and Bespoke Solutions

Technical Support

Providing the best independent technical advice on ventilation solutions for you

Stock / Delivery

We have a wide range of products available for dispatch to any worldwide location

Design

Our dedicated in-house design team can provide a bespoke layout from your plan

Proposal

All our systems are provided with a proposal which is tailored to each individual project
