

# Quiet-Vent 90mm x 50 Meter Radial Pipe

**90mm radial ducting pipe for radial ducting systems, suitable for use for ventilation systems**

**Smooth, antibacterial and antistatic inner surface**

**Highly flexible with reliable and tight connections**

**Flow optimised pipe – minimises pressure and reduces noise transfer**

**Suitable for installation in walls and ceilings**

**Minimum radius bend 150mm**

**Reduces or eliminates noise transfer between rooms (crosstalk)**

<b>Diameter (outer)</b>	91mm
<b>Diameter (inner)</b>	78mm
<b>Min bend radius</b>	150mm
<b>Airflow rate max</b>	45 m <sup>3</sup> /h
