

Quiet-Vent Circular Electric Duct Heater with Adjustable Temperature and Safety Sensors

Professional complete heater with temperature sensor located on the unit with duct airflow sensor and differential pressure sensor, available in 0.6kw, 1.2kw, 2.4kw and 3.0kw with sizes including 100, 125, 160, 200 & 250mm

Suitable for use as a controllable heater that will increase the air temperature to the ventilation unit or room to a pre-set temperature to prevent any frost build up and to increase the returned air temperature

The temperature set point is controlled by a turn dial on the heater

Contains an internal temperature regulator that enables fine temperature control from the control dial on the heater

spigot ∅	power output	product code
100mm	0.6kw	EKA-NV PTC/PS 100-0.6 PTC/PS
125mm	1.2kw	EKA-NV PTC/PS-125-1.2 PTC/PS
160mm	1.2kw	EKA-NV PTC/PS-160-1.2 PTC/PS
160mm	2.4kw	EKA-NV PTC/PS-160-2.4 PTC/PS
200mm	3.0kw	EKA-NV PTC/PS-200-3.0 PTC/PS
250mm	3.0kw	EKA-NV PTC/PS-250-3.0 PTC/PS
