

Quiet-Vent Duct Mount Electric Heater Range

Top quality electric duct heater with thermal cut out switches, available in 1.2kw, 2.4kw and 3.0kw with a range of sizes including 125, 160, 200 & 250mm

Features include twin overheating protection, easy to use screw terminals and has rubber sealed ductwork connections

Can be installed both horizontally and vertically

There are two thermostats inside the duct heater- the first one has an automatic reset if the temperature exceeds 50 degree and turns on again when lowers, the second is a manual reset if the temperature exceed 100 degree (has to be manually reset at the heater)

spigot ø	power output	product code
100mm	0.6kw	EKA-100-0.6
125mm	1.2kw	EKA-125-1.2
160mm	1.2kw	EKA-160-1.2
160mm	2.4kw	EKA-160-2.4
200mm	3.0kw	EKA-200-3.0
250mm	3.0kw	EKA-250-3.0
