

Quiet-Vent Round Metal Silencer Range

Metal silencer for using in ventilation ducting systems, available in 100, 125, 150, 180, 200, 250, 300, 315, 355, & 400mm diameters, available in 600 and 900mm lengths

An Attenuation silencer works the same as a silencer of a car and reduces turbulence in the ducting making the system quieter

**Allow an extra 150mm to size for total measurement ie (600+150= 750mm)
Self-sealing fittings on each side**

Constructed of an outer spiral seemed tube and an inner tube made of perforated sheet steel

spigot ø	length (L)	product code
100mm	600mm	ASM100600
125mm	600mm	ASM125600
150mm	600mm	ASM150600
180mm	600mm	ASM180600
200mm	600mm	ASM200600
250mm	600mm	ASM250600
300mm	900mm	ASM300900
315mm	600mm	ASM315600
315mm	900mm	ASM315900
355mm	900mm	ASM355900
400mm	900mm	ASM400900
