

Quiet-Vent Rubber Flexible Circular Duct Connector

High quality Flexible Rubber Circular Connectors are used to neutralise vibrations in circular ducts in ventilation systems available in various sizes, 100-125, 135-150, 150-165 & 170-185mm

As well as having anti-vibration properties, the flexible connector is also highly adjustable

We recommend using these connectors to connect your MVHR unit to solid rigid ducting

Suitable for any type of fan or ducting

Highly adjustable

Easy to install

spigot Ø	product code
125mm	CRC110-125
150mm	CRC135-150
165mm	CRC150-165
185mm	CRC170-185
