

PRODUCT DATASHEET

QV-SSC100M

Quiet-Vent 100mm Stainless Steel Cowl

Technical Specification

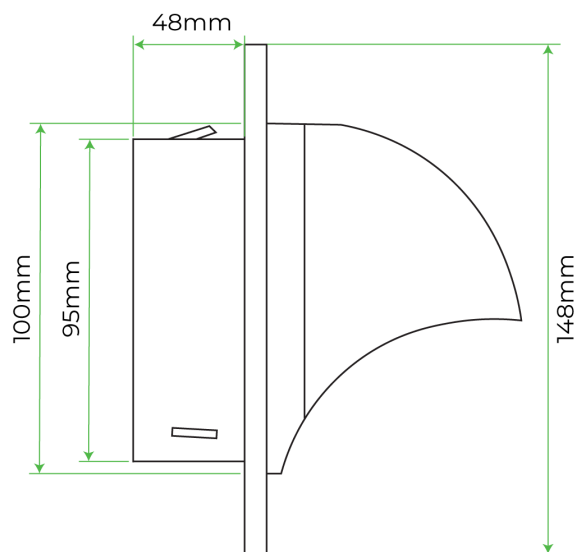

Manufacturer	Quiet-Vent
Part Number	QV-SSC100M
Type	External Wall Cowl
Duct Size	100mm
Material	Stainless Steel
Application	Supply / Extract
Weight	0.16kg
Dimensions	148 × 48mm
Installation	Wall Mounted

Product Overview

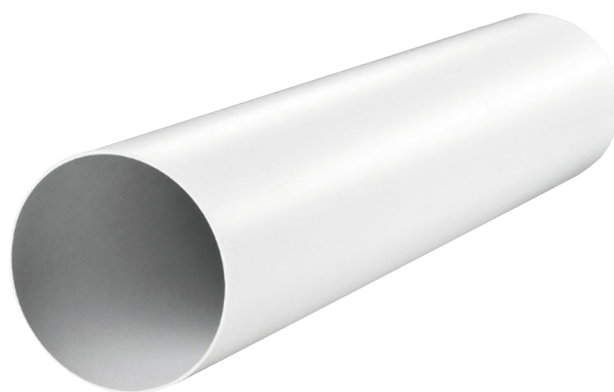

The Quiet-Vent Stainless Steel Cowl is designed for use as an external termination for ventilation systems, providing a neat and durable finishing point for supply or extract ductwork. Its smooth bull-nose profile gives the exterior of the property a clean appearance while helping to protect the ventilation opening from exposure to outdoor conditions.

Manufactured from durable stainless steel, the cowl incorporates a protective mesh/bird screen to help prevent debris, pests and small animals from entering the ductwork while maintaining effective airflow through the system. Designed for secure installation on external walls, it provides a practical and long-lasting termination for residential and light commercial ventilation applications. Available in a range of sizes from 100mm to 150mm, it can be matched with compatible circular ductwork to suit different system requirements.

QV-SSC125M

Quiet-Vent 125mm Stainless Steel Cowl

Technical Specification

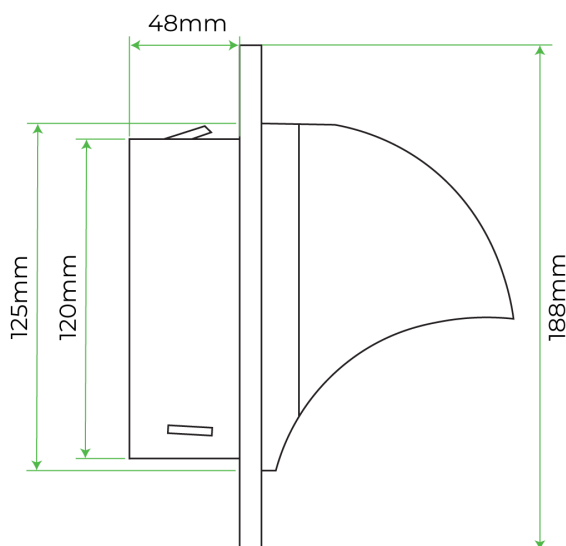

Manufacturer	Quiet-Vent
Part Number	QV-SSC125M
Type	External Wall Cowl
Duct Size	125mm
Material	Stainless Steel
Application	Supply / Extract
Weight	0.27kg
Dimensions	188 × 48mm
Installation	Wall Mounted
